PI Phone booth S Pet

Kettal PI: A Flexible Space Organization System

PI is an innovative micro-architectural system designed to redefine the work environment. Its flexible structure creates distinct areas within the office, providing spaces where people can isolate themselves from the general surroundings to meet or work without the need for closed doors. Unlike traditional rigid office planning, PI offers a simple yet multifunctional furniture system, allowing the freedom to design the optimal space for each task.

Specifications

- Glass door
- Wooden structure
- Acoustic panels
- Absorption system
- Leveling feet

- USB A+C
- Faced external wall
- Air ventilation system
- LED lighting
- PIR sensor

PI Phone booth S Pet

Features

Recycled Materials

Made with sustainability in mind, the PI Phone Booth features PET materials and 95% recycled aluminum—an eco-conscious solution for modern spaces.

Acoustic panel

Designed for sound absorption, the acoustic panels feature wave-shaped surfaces that help reduce noise and enhance comfort in shared spaces.

AirGlow

A good air renewal system provides comfort and well-being. A thin layer of air from above refreshes the air in the cabin. A laminar of light from below bathes the wall and work area.

Connectivity

Includes four built-in power outlets for convenient device charging and seamless workspace integration.

Leveling feet

Equipped with a built-in leveler, PI stays firmly in place—flexibility without compromising stability.

SkyLight

Inmerse in Peaceful natural day light casacde. Turn the night into a harmonious dance of stars
